

PRESS RELEASE

U.S. Allegiance Institute releases Declaration of Allegiance in strong support of Constitutional eligibility enforcement.

April 26, 2020 at 9:42 PM EST, The U.S. Allegiance Institute published its Declaration of Allegiance online at (www.usallegianceinstitute.org).

Statement by Board Member, Steve Maguire:

“The U.S. Allegiance Institute is dedicated to the full compliance and enforcement of Article II, Section I, Clause 5 of the U.S. Constitution.”

Established in 2019, the U.S. Allegiance Institute is a non-partisan, non-profit educational watchdog organization based in the United States of America. The organization was founded to alert the American public of the following concerns:

- The conflating of the legal terms citizen and natural born citizen.
- The active negligence and malfeasance by all 3 branches of government to determine Article II eligibility before allowing ballot access.
- The usurpation of the Office of the President of the United States as Commander-in-Chief of its nuclear arsenal is a Constitutional crisis and a national security threat to the Republic.

We resolutely submit these facts to a candid nation, that all candidates for President and Vice President seeking to be on ballots in the various states must prove they are Constitutionally eligible to be elected.

The U.S. Allegiance Institute’s activities include:

- Education and research.
- Correction of misinformation.
- Support for legal action necessary to enforce the Constitution.

Our main goal: Constitutional eligibility on all ballots.
